

## PLAN TO FURNISH \$100,000,000 GOLD TO HELP ENGLAND

MAY HOLD COIN AND GIVE GREAT BRITAIN A CREDIT.

WASHINGTON, D. C., August 4.—Representatives of New York foreign exchange houses were in Washington to hold a conference with President Wilson. They planned to suggest the unprecedented procedure of advancing \$100,000,000 credit to England.

The suggestion for a loan of \$100,000,000 gold to England was made at a meeting Saturday of representatives of the principal foreign exchange houses. For the last two days business in foreign exchange has been virtually suspended, and it was deemed essential to the financial interests of this country to devise some plan of restoring equilibrium.

It was proposed to ship the gold to England, or what met with more general approval, to hold the gold here. In the latter case this money would be placed to the credit of England, under the supervision of representatives of the British government. Another proposal was to purchase a special issue of British bonds, to be underwritten here.

The primary importance of such a step, however, would be to halt the unprecedented outflow of gold from this country, and to enable Europe to pay for exports, principally foodstuffs, which it is expected will be made in the near future. With \$100,000,000 to foreign credit here, it was said, the necessity for further exports of the metal would nearly if not wholly disappear.

## BULLION SHIPMENT CASHED AT BANK

CLEAN UP OF ROUND MOUNTAIN PLACERS DEPOSITED IN TONOPAH.

David S. Llewellyn came in this morning from Round Mountain with a load of gold bullion that went to the First National bank, which issued a credit slip for \$12,000. This is the result of the last clean up of the placers in the northern part of the county and shows that Nye county is ready and able to furnish gold in the fighting nations of Europe insist on having the yellow metal.

## SCHOOL INCREASE DURING THE YEAR

CARSON CITY, August 4.—The state superintendent reports a considerable increase in the school census of 1914 over that of the preceding year, the exact gain being 446, and the entire number of school census children (between six and eighteen years) being 13,521. In the last four years the net increase has been 1,210.

The school enrollment and average attendance during the four-year period for which figures are given shows to still better advantage, being over 2,000 in excess of that for the school year ending June 30, 1910.

## THE EXPRESS IS IN THIS TOWN AND IN TO STAY

FOR seventy-five years—three-quarters of a century—the express has been the right-hand of the shippers of commercial America. The Express came to Tonopah in 1902, and it came to stay. For twelve years it has been the right-hand of commercial Tonopah.

It is here to stay. The other day when reports went out that the express companies might retire from business, a protest went up. From

whom this protest—the express companies? No! The merchants of the country shippers everywhere petitioned Congress that no action be taken that might have the effect of forcing the express companies to retire. Commercial organizations all over the land have joined in this appeal to Washington.

For seventy-five years in the past and for a good many more years in the future Express Service will mean
